Shutters

Make your home a more comfortable place to live...

Made in Australia for Australian conditions, shutter slats and guides are made from high tensile aluminium. The double walled slats are PU foam injected.

Shutters give you control over:

- **Security.** The shutter completely covers your window. Giving you complete piece of mind.
- **Climate.** Shutters block out up to 62% of heat. It also keeps you warm in winter. This also means you will save on heating and cooling costs.
- **Weather Protection.** Hail, strong winds and storms are no match for your shutters.
- **Noise.** Shutters actually reduce noise outside by around 60%.

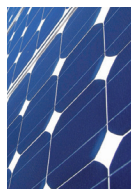

Roller shutters are controlled from inside your home by either:

**CABLE
WINDER**

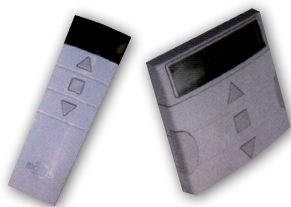

ELECTRIC

SOLAR

The deluxe electric option requires a simple flick of the switch. While the manual winders are matched to suit the size of your shutter.

Remote Technology

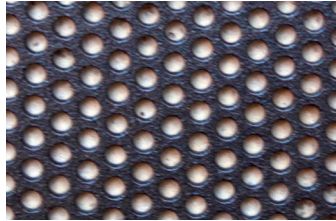

Shutters come in a full range of Colorbond colours. Ideal for night shift workers, home cinemas and alfresco areas.

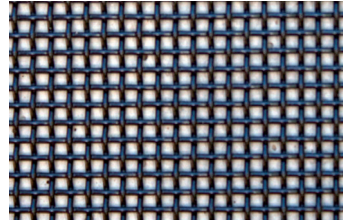

Security doors and Blinds

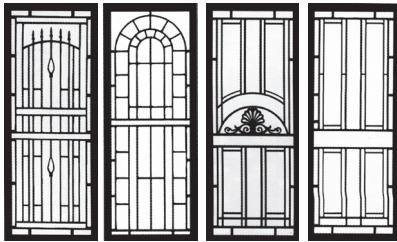

Security doors are manufactured locally by DSS from steel security mesh or cast iron grills and provide you with security whilst at the same time allowing you to enjoy airflow without the insects. Choose from a large range to suit all styles from traditional colours and grills to modern options to suit contemporary homes.
